Deadline for manuscript
submissions:

closed (31 July 2025)

Message from the Guest Editors

This Special Issue invites original research papers, review articles and case studies that address the applications of smart systems and sustainability within manufacturing processes. We welcome contributions that explore the multifaceted dimensions of smart systems, sustainability principles and their integration, highlighting how smart technologies and sustainability principles collaboratively enhance manufacturing excellence.

Topics of interest include, but are not limited to, the following:

- *Smart Manufacturing Advancements;*
- *Additive Manufacturing;*
- *Digital Twins;*
- *Sustainability as an Integral Component;*
- *Sustainable Supply Chains;*
- *Energy Efficiency Strategies;*
- *Environmental Impact Assessment.*

processes

an Open Access Journal by MDPI

Editor-in-Chief

Prof. Dr. Giancarlo Cravotto

Department of Drug Science and
Technology, University of Turin,
Via P. Giuria 9, 10125 Turin, Italy

Message from the Editor-in-Chief

You are invited to contribute either a research article or a comprehensive review for consideration and publication in *Processes*. *Processes* is published in open access format – research articles, reviews, and other content are released on the internet immediately after acceptance. The scientific community and the general public have unlimited, free access to the content. As an open access journal, *Processes* is supported by the authors and their institutes through the payment of article processing charges (APCs) for accepted papers. We would be pleased to welcome you as one of our authors.

Author Benefits

Open Access: free for readers, with **article processing charges (APC)** paid by authors or their institutions.

High Visibility: indexed within **Scopus**,
SCIE (Web of Science), **Ei Compendex**, **Inspec**, **AGRIS**, and **other databases**.

Journal Rank: CiteScore - Q2 (Chemical Engineering (miscellaneous))
