Laboratories, Dipartimento  
Politecnico di Ingegneria &  
Architettura, University of Udine,  
I-33100 Udine, Italy

### Message from the Guest Editor

The Special Issue on "Applications of Ionic Liquids and Deep Eutectic Solvents in Separation Processes for the Circular Economy" will collect high-quality works on the latest advances in the application of such solvents in chemical separations. The topics of this Special Issue include, but are not limited to:

Deadline for manuscript  
submissions:

**closed (15 April 2023)**

- Basic studies on thermodynamic and kinetic aspects of separations using DES and ILs;
- Critical raw-material recycling by selective extraction and separation from secondary sources;
- Recovery of added-value compounds from biomass;
- Computational modelling studies of ILs and DES, dissolution, transport and separation processes;
- Applications in industrial contexts and process design;
- Engineering aspects of separation processes employing ILs and DES.

an Open Access Journal by MDPI

## Editor-in-Chief

**Prof. Dr. Giancarlo Cravotto**

Department of Drug Science and  
Technology, University of Turin,  
Via P. Giuria 9, 10125 Turin, Italy

## Message from the Editor-in-Chief

*Processes* (ISSN 2227-9717) provides an advanced forum for process/system-related research in chemistry, biology, material, energy, environment, food, pharmaceutical, manufacturing and allied engineering fields. The journal publishes regular research papers, communications, letters, short notes and reviews. Our aim is to encourage researchers to publish their experimental, theoretical and computational results in as much detail as necessary. There is no restriction on paper length or number of figures and tables.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), Ei Compendex, Inspec, AGRIS, and other databases.

**Journal Rank:** JCR - Q2 (*Engineering, Chemical*) / CiteScore - Q2 (*Chemical Engineering (miscellaneous)*)
