Message from the Guest Editors

This Special Issue on “Recent Advances in Application of Silver Nanoparticles in Biochemistry” aims to cover recent advances in the application of silver nanoparticles in various fields of bioscience. Topics include but are not limited to methods and/or applications in the following areas:

- Synthesis and characterization of silver nanoparticles;
- Silver nanoparticles in the management of plant diseases and agricultural applications;
- Silver nanoparticles and multidrug-resistant bacterial species;
- Silver nanoparticles and human health;
- Cytotoxicity of silver nanoparticles;
- Silver nanoparticles in neurodevelopment and neurodegeneration.

an Open Access Journal by MDPI

Editor-in-Chief

Prof. Dr. Giancarlo Cravotto

Department of Drug Science and
Technology, University of Turin,
Via P. Giuria 9, 10125 Turin, Italy

Message from the Editor-in-Chief

Processes (ISSN 2227-9717) provides an advanced forum for process/system-related research in chemistry, biology, material, energy, environment, food, pharmaceutical, manufacturing and allied engineering fields. The journal publishes regular research papers, communications, letters, short notes and reviews. Our aim is to encourage researchers to publish their experimental, theoretical and computational results in as much detail as necessary. There is no restriction on paper length or number of figures and tables.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), Ei Compendex, Inspec, AGRIS, and other databases.

Journal Rank: JCR - Q2 (*Engineering, Chemical*) / CiteScore - Q2 (*Chemical Engineering (miscellaneous)*)
