Deadline for manuscript
submissions:

closed (30 April 2021)

Message from the Guest Editors

The special issue *Various Adsorbents for Water Purification Processes* aims at publishing experimental and review papers as well as short communications discussing the recent developments in the field of synthesis, modification, physicochemical characteristics and evaluation of adsorption properties of different materials to obtain adsorbents for applications in water and wastewater treatment and purification processes.

The topics of the papers to be submitted to this Special Issue are defined, but not limited, by the keywords presented below:

- adsorbents
- adsorption
- environment
- wastewaters
- heavy metals
- toxic substances
- purification
- removal

an Open Access Journal by MDPI

Editor-in-Chief

Prof. Dr. Giancarlo Cravotto

Department of Drug Science and
Technology, University of Turin,
Via P. Giuria 9, 10125 Turin, Italy

Message from the Editor-in-Chief

Processes (ISSN 2227-9717) provides an advanced forum for process/system-related research in chemistry, biology, material, energy, environment, food, pharmaceutical, manufacturing and allied engineering fields. The journal publishes regular research papers, communications, letters, short notes and reviews. Our aim is to encourage researchers to publish their experimental, theoretical and computational results in as much detail as necessary. There is no restriction on paper length or number of figures and tables.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), Ei Compendex, Inspec, AGRIS, and other databases.

Journal Rank: JCR - Q2 (*Engineering, Chemical*) / CiteScore - Q2 (*Chemical Engineering (miscellaneous)*)
