New Processes: Working towards a Sustainable Society

Guest Editors:

Prof. Dr. Pau Loke Show

Department of Chemical and Environmental Engineering, Faculty of Science and Engineering, University of Nottingham Malaysia, Broga Road, Semenyih 43500, Malaysia

Dr. Kit Wayne Chew

School of Chemistry, Chemical Engineering and Biotechnology, Nanyang Technological University, 62 Nanyang Drive, Singapore 637459, Singapore

Prof. Dr. Aydin Berenjian

Department of Chemical and Biological Engineering, Colorado State University, Fort Collins, CO 80523, USA

Deadline for manuscript submissions:

closed (15 December 2021)

Message from the Guest Editors

In order to move towards a sustainable society, it is vital to provide the highest standard of wellbeing for the environment, human and economic. We can contribute by providing technical as well as scientific work that can be accessed freely and implemented by all. We welcome submission of the following topics (but not limited to):

- Sustainable processes and technologies in chemical engineering
- Green bioproducts, food and bioprocessing
- New nanotechnology and advanced materials
- Environmentally friendly waste treatment and management

All the authors of accepted contributions at APCChE 2021 with topics related to sustainable developments are invited to submit manuscripts to *Processes* under the Special Issue of "New Processes: Working Towards a Sustainable Society".

Editor-in-Chief

Prof. Dr. Giancarlo Cravotto

Department of Drug Science and Technology, University of Turin, Via P. Giuria 9, 10125 Turin, Italy

Message from the Editor-in-Chief

Processes (ISSN 2227-9717) provides an advanced forum for process/system-related research in chemistry, biology, material, energy, environment, food, pharmaceutical, manufacturing and allied engineering fields. The journal publishes regular research papers, communications, letters, short notes and reviews. Our aim is to encourage researchers to publish their experimental, theoretical and computational results in as much detail as necessary. There is no restriction on paper length or number of figures and tables.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus,

SCIE (Web of Science), Ei Compendex, Inspec, AGRIS, and other databases.

Journal Rank: JCR - Q2 (*Engineering, Chemical*) / CiteScore - Q2 (*Chemical Engineering (miscellaneous*))
