

an Open Access Journal by MDPI

Synthetic Aperture Radar Remote Sensing for Geophysical and Biophysical Parameters Retrieval

Guest Editors:

Dr. Shashi Kumar

Dr. Rahul Raj

Dr. Gaurav Kumar

Dr. Anil Kumar

Dr. Unmesh Khati

Dr. Prasad S. Thenkabail

Deadline for manuscript submissions:
15 August 2024

Message from the Guest Editors

A tentative list of topics on which manuscripts can be submitted is as follows:

- Retrieval of forest parameters using SAR remote sensing;
- Mapping and monitoring of agricultural crops;
- Soil moisture retrieval by implementing modeling approaches on SAR data;
- Scattering-based characterization of manmade and natural features using polarimetric decomposition models;
- Machine learning and deep learning models for SAR backscatter-based classification of land use and land cover;
- Monitoring of volcanic eruptions and lava flow using PolSAR and InSAR;
- Mapping and monitoring of cultural and natural world heritage sites using spaceborne SAR data;
- Retrieval of geo-/biophysical parameters and classification using SAR data in combination with other remote sensing data;
- Snow parameter retrieval and mapping and monitoring of glacier surfaces using SAR data;
- Utilization of SAR data for geological applications;
- Land subsidence mapping and monitoring using temporal InSAR data;
- Polarimetric modeling for geological, geomorphological, and structural parameters of the lunar surface.

Message from the Editor-in-Chief

Remote Sensing is now a prominent international journal of repute in the world of remote sensing and spatial sciences, as a pioneer and pathfinder in open access format. It has highly accomplished global remote sensing scientists on the editorial board and a dedicated team of associate editors. The journal emphasizes quality and novelty and has a rigorous peer-review process. It is now one of the top remote sensing journals with a significant Impact Factor, and a goal to become the best journal in remote sensing in the coming years. I strongly recommend *Remote Sensing* for your best research publications for a fast dissemination of your research.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), Ei Compendex, PubAg, GeoRef, Astrophysics Data System, Inspec, dblp, and other databases.

Journal Rank: JCR - Q1 (*Geosciences, Multidisciplinary*) / CiteScore - Q1 (*General Earth and Planetary Sciences*)
