submissions:

31 December 2017

Message from the Guest Editors

Dear Colleagues,

This Special Issue aims to bring up discussion concerning innovative techniques/approaches based on remote sensing data, and to nurture the knowledge on the acquisition of Earth observations and its applications in the contemporary practice of sustainable development. Research scientists and other subject matter experts are encouraged to submit challenging papers that describe advances in the related topics:

- Disasters
- Health
- Energy
- Climate
- Water
- Weather
- Ecosystems
- Agriculture/Forestry/Fishery
- Biodiversity
- Industry and Policy

Dr. Yuei-An Liou
