Kernel-Based Remote Sensing Image Analysis

Guest Editors:

Dr. Saeid Niazmardi

Dr. Reza Shah-Hosseini

Dr. Mahdi Hasanlou

Dr. Saeid Homayouni

Deadline for manuscript submissions:
closed (1 June 2023)

Message from the Guest Editors

This special issue aims to promote and highlight the recent advances in kernel-based algorithms for remote sensing data analysis. We welcome submissions that provide the remote sensing community with the most recent developments in kernel-based algorithms' related aspects such as theory, development, applications, optimization, and improvement.

Special Issue

Editor-in-Chief

Dr. Prasad S. Thenkabail
Senior Scientist (ST), U. S. Geological Survey (USGS), USGS Western Geographic Science Center (WGSC), 2255, N. Gemini Dr., Flagstaff, AZ 86001, USA

Message from the Editor-in-Chief

Remote Sensing is now a prominent international journal of repute in the world of remote sensing and spatial sciences, as a pioneer and pathfinder in open access format. It has highly accomplished global remote sensing scientists on the editorial board and a dedicated team of associate editors. The journal emphasizes quality and novelty and has a rigorous peer-review process. It is now one of the top remote sensing journals with a significant Impact Factor, and a goal to become the best journal in remote sensing in the coming years. I strongly recommend *Remote Sensing* for your best research publications for a fast dissemination of your research.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.
High Visibility: indexed within Scopus, SCIE (Web of Science), Ei Compendex, PubAg, GeoRef, Astrophysics Data System, Inspec, dblp, and other databases.
Journal Rank: JCR - Q1 (*Geosciences, Multidisciplinary*) / CiteScore - Q1 (*General Earth and Planetary Sciences*)
