Message from the Guest Editors

Dear Colleagues,

The ability to identify, quantify, forecast and manage the economic, demographic and financial risks that challenge the long-term objectives of public and private retirement income schemes is of paramount importance for creating and managing financially sustainable and intra- and intergenerationally fair public and private pension schemes. This Special Issue of *Risks* is devoted to high-quality papers that move the state-of-the-art forward with innovative theoretical, practical and policy-oriented developments in risk management.

Special Issue

Editor-in-Chief

Prof. Dr. Steven Haberman
Faculty of Actuarial Science and Insurance, Bayes Business School, City University of London, 106 Bunhill Row, London EC1Y 8TZ, UK

Message from the Editor-in-Chief

Risks is published in Open Access format – research articles, reviews and other content are released on the internet immediately after acceptance. Specifically, *Risks* welcomes contributions that

- contribute with insight, outlook, understanding and overview, no matter how simple they are;
- show creativity in pedagogical tricks and techniques;
- help the transfer of theoretical research to public and private application;
- show responsibility for societal impact.

The scientific community and the general public have unlimited free access to the content as soon as it is published.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.
High visibility: indexed within Scopus, ESCI (Web of Science), EconLit, EconBiz, RePEc, and other databases.
Journal Rank: CiteScore - Q1 (*Economics, Econometrics and Finance (miscellaneous)*)
