Engineering, Qatar University,  
Doha, Qatar

Deadline for manuscript  
submissions:

**closed (31 March 2024)**

### Message from the Guest Editors

Dear Colleagues,

With robots becoming increasingly incorporated into the living spaces of humans, social intelligence has become a universal issue in robotics sub-fields. Robots' capabilities (manipulation, navigation, collaboration, etc.) can no longer be considered complete without careful consideration of their human awareness and social interaction.

For this Special Issue, we welcome submissions of recent research on the provision of social intelligence to robots across various applications, including manufacturing, logistics, retail, human care, entertainment, and education.

Dr. Minsu Jang

Dr. Ho Seok Ahn

Dr. John-John Cabibihan

## Message from the Editor-in-Chief

It is my great pleasure to welcome you to our open access journal, *Robotics*, which is dedicated to both the foundations of artificial intelligence, bio-mechanics and mechatronics, and the real-world applications of robotic perception, cognition and actions. The 21st century is the robotics century and intelligent robots will change our lifestyle forever. Let us work together toward the realization of intelligent robots step by step.

It is great fun to create intelligent robots and imagine their practical applications. *Robotics* is now ready to serve you in the long journey towards such a goal.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, ESCI (Web of Science), dblp, Inspec, and other databases.

**Journal Rank:** CiteScore - Q1 (*Control and Optimization*)
