## Machine Learning in Computer Vision and Image Sensing: Theory and Applications

Guest Editors:

**Dr. Subrata Chakraborty**

1. School of Science and Technology, Faculty of SABL, University of New England, Armidale, NSW 2351, Australia
2. Centre for Advanced Modelling and Geospatial Information Systems (CAMGIS), University of Technology Sydney, Ultimo, NSW 2007, Australia
3. Griffith Business School, Griffith University, Brisbane, QLD 4111, Australia

**Prof. Dr. Biswajeet Pradhan**

Centre for Advanced Modelling and Geospatial Information Systems (CAMGIS), University of Technology Sydney, Sydney, NSW 2007, Australia

### Message from the Guest Editors

Machine learning models have seen tremendous progress over the past decade, with hugely diverse application domains such as Earth observation, spatial computing, natural hazard and environmental modeling, medical imaging, and many more. Computer vision and image sensing area have benefitted immensely from machine learning applications to solve complex and real-world challenges. Advances in machine learning enable us to better analyse image and sensor data. This has driven enormous research endeavours towards solving practical problems in multiple application domain areas including healthcare, agriculture, defence, remote sensing, Earth observation, autonomous navigation, etc. This Special Issue aims to collate a compendium of top-quality research works addressing the broad challenges in both theoretical and application aspects of advanced machine learning models in computer vision and image sensing areas.

Deadline for manuscript submissions:

**closed (10 April 2023)**

## Editor-in-Chief

### **Prof. Dr. Vittorio M. N. Passaro**

Dipartimento di Ingegneria  
Elettrica e dell'Informazione  
(Department of Electrical and  
Information Engineering),  
Politecnico di Bari, Via Edoardo  
Orabona n. 4, 70125 Bari, Italy

## Message from the Editor-in-Chief

*Sensors* is a leading journal devoted to fast publication of the latest achievements of technological developments and scientific research in the huge area of physical, chemical and biochemical sensors, including remote sensing and sensor networks. Both experimental and theoretical papers are published, including all aspects of sensor design, technology, proof of concept and application. *Sensors* organizes Special Issues devoted to specific sensing areas and applications each year.

## Author Benefits

**Open Access** : free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

**High Visibility**: indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [PubMed](#), [MEDLINE](#), [PMC](#), [Ei Compendex](#), [Inspec](#), [Astrophysics Data System](#), and [other databases](#).

**Journal Rank**: JCR - Q2 (*Instruments & Instrumentation*) / CiteScore - Q1 (*Instrumentation*)
