Message from the Guest Editors

Dear Colleagues,

The recent advances in optical sources and detectors have opened up new opportunities for sensing and imaging techniques and biomedical and healthcare applications. This Special Issue of Sensors, entitled "Optical Methods in Sensing and Imaging for Medical and Biological Applications", will focus on all aspects of the research and development related to these areas.

Original research papers that focus on the design and experimental verification of new sensors and imaging system operating in optical spectra, as well as papers that focus on their testing for biomedical and clinical applications, are welcome.

Both reviews and original research articles will be published. Reviews should provide an up-to-date, well-balanced overview of the current state-of-the-art in a particular application and include main results from other groups.

We look forward to, and welcome, your participation in this Special Issue.

Dr. Dragan Indjin,  
Dr. Željka Cvejić  
Dr. Małgorzata Jędrzejewska-Szczerska  
Guest Editors
Message from the Editorial Board

Sensors is a leading journal devoted to fast publication of the latest achievements of technological developments and scientific research in the huge area of physical, chemical and biochemical sensors, including remote sensing and sensor networks. Both experimental and theoretical papers are published, including all aspects of sensor design, technology, proof of concept and application. Sensors organizes special issues devoted to specific sensing areas and application each year.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High visibility: indexed by the Science Citation Index Expanded (Web of Science), MEDLINE (PubMed), Ei Compendex, Inspec (IET) and other databases.

Rapid publication: manuscripts are peer-reviewed and a first decision provided to authors approximately 24 days after submission; acceptance to publication is undertaken in 5.6 days (median values for papers published in this journal in 2017).
