Deadline for manuscript submissions:
31 May 2017

Message from the Guest Editors

Dear Colleagues,

The aim of this Special Issue is to provide a comprehensive overview on the state-of-the-art sensor technology of Canada. Research articles are invited, which will provide a consolidated, up-to-date perspective in this area. The Special Issue will publish full research, review, and other highly-rated manuscripts addressing the above aim. Potential topics include, but are not limited to:

- Biosensors
- Chemical sensors
- Physical sensors
- NEMS/MEMS sensors
- Sensor arrays and networks
- Automotive applications
- Aerospace applications
- Advanced manufacturing applications
- Environmental applications
- Biomedical and human assistive applications

Prof. Dr. Stephane Evoy

Author Benefits

Open Access: free for readers, with publishing fees paid by authors or their institutions.

High visibility: indexed by the Science Citation Index Expanded (Web of Science), MEDLINE (PubMed), EI Compendex, INSPEC (IET) and other databases.

Rapid publication: manuscripts are peer-reviewed and a first decision provided to authors approximately 30 days after submission; acceptance to publication is undertaken in 6 days (median values for papers published in this journal in 2016).

Sections: published in five topical sections.
