and Environmental Sciences and  
Technologies, University of  
Salento, Lecce, Italy

**Dr. Željko Stević**

Faculty of Transport and Traffic  
Engineering, University of East  
Sarajevo, Doboj, Bosnia and  
Herzegovina

**Dr. Snežana Tadić**

Logistics Department, Faculty of  
Transport and Traffic  
Engineering, University of  
Belgrade, Belgrade 11000, Serbia

Deadline for manuscript  
submissions:

**31 July 2024**

### Message from the Guest Editors

Since the UN promoted the 17 Sustainable Development Goals, sustainability has become one of the most important aspects of any business model.

Green logistics is based on the development and application of the concept of circular economy (CE), which implies a closed loop of material flows in the economic system. The concept of CE is emerging as a potential solution for achieving supply sustainability through the implementation of closed-loops of material flows based on maintenance, repair, reusing, refurbishing, remanufacturing, and recycling processes.

This SI is sustainability research in the context of logistics and supply chain management. The main purpose is to better understand the role of sustainability in the development of logistics and supply chain activities in order to create favorable circumstances for their effective management.

## Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

## Author Benefits

**Open Access:** free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

**High Visibility:** indexed within [Scopus](#), [SCIE](#) and [SSCI \(Web of Science\)](#), [GEOBASE](#), [GeoRef](#), [Inspec](#), [AGRIS](#), [RePEc](#), [CAPlus / SciFinder](#), and [other databases](#).

**Journal Rank:** JCR - Q2 (*Environmental Studies*) / CiteScore - Q1 (*Geography, Planning and Development*)
