Deadline for manuscript
submissions:

15 December 2024

Message from the Guest Editor

Building a healthy future is inevitable for the health and well-being of current and future generations. Sustainable living environments that enhance public health are a foundation to maintain and improve health and well-being and play a role in the development of economic growth. We are excited to announce a call for submissions to a Special Issue focusing on accountability, sustainability, environmental and public health, and equity. This Special Issue explores innovative research, policy perspectives, and practical implementations that contribute to building a healthy future for current and future generations. We invite manuscripts that examine a wide range of topics including, but not limited to (1) sustainable urban/rural development and planning; (2) social determinants of health and equity; (3) healthy indoor home environments; (4) environmental and occupational health; and (5) energy poverty/equity. Energy poverty, a condition where households cannot afford basic energy services, can lead to inadequate heating or cooling, impacting health through increased vulnerability to extreme temperatures, respiratory conditions, and stress-related illnesses.

an Open Access Journal by MDPI

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, AGRIS, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q2 (*Environmental Studies*) / CiteScore - Q1 (Geography, Planning and Development)
