Message from the Guest Editor

Dear Colleagues,

Small and Medium-Sized Enterprises (SMEs) are the main pillars of the economy, and their decisions and behavior fundamentally influence the operation of the current economy. It is also increasingly clear that the circular economic model must be considered in relation to the activities of SMEs. The ways in which SMEs participate in the circular economy affect their operation, investment decisions, reputation, and effectiveness. However, due to their small size, they face several challenges in improving their resource efficiency. On this note, circular economy business models (CEBMs) support SMEs in overcoming the risks of implementation, and are extremely important in developing and emerging countries where inappropriate policy frameworks hinder the circular economy's implementation in SMEs.

In this Special Issue, we invite scholars from all field to contribute papers on the relationship between SMEs and the circular economy, with a focus on business models and concepts.

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Author Benefits

Open Access: free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [SCIE](#) and [SSCI \(Web of Science\)](#), [GEOBASE](#), [GeoRef](#), [Inspec](#), [AGRIS](#), [RePEc](#), [CAPlus / SciFinder](#), and [other databases](#).

Journal Rank: JCR - Q2 (*Environmental Studies*) / CiteScore - Q1 (*Geography, Planning and Development*)
