

Advances in Biomass Conversion and Biofuel Production

Guest Editors:

Prof. Dr. Yaning Zhang

School of Energy Science and Engineering, Harbin Institute of Technology, Harbin 150001, China

Prof. Dr. Ehab Mostafa

Faculty of Agriculture, Cairo University, Giza 12613, Egypt

Dr. Xiaoyan Gao

College of Metrology and Measurement Engineering, China Jiliang University, Hangzhou 310018, China

Deadline for manuscript submissions:

closed (11 May 2024)

Message from the Guest Editors

Dear Colleagues,

World development reinforces the fact that sustainability or sustainable development is a global issue. According to the WCED (World Commission on Environment and Development, 1987), sustainability or sustainable development is development that meets the needs of the present without compromising the ability of future generations to meet their own needs. Biomass energy/resources are abundantly available, CO₂/GHG (greenhouse gas) neutral, environmentally friendly, renewable, and sustainable. They are therefore very important among renewable resources, i.e., geothermal energy, solar energy, etc. This Special Issue is focused on advances in biomass conversion and biofuel production.

In this Special Issue, original research articles and reviews are welcome. Research areas may include (but not limited to) the following:

- Properties of biomass;
- Properties of biofuel;
- Treatment of biomass;
- Conversion of biomass;
- Upgrading of biofuel;
- Utilization of biofuel;
- Energy systems;
- Other related topics.

an Open Access Journal by MDPI

Oshawa, ON L1G 0C5, Canada

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Author Benefits

Open Access: free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [SCIE](#) and [SSCI \(Web of Science\)](#), [GEOBASE](#), [GeoRef](#), [Inspec](#), [AGRIS](#), [RePEc](#), [CAPlus / SciFinder](#), and [other databases](#).

Journal Rank: JCR - Q2 (*Environmental Studies*) / CiteScore - Q1 (*Geography, Planning and Development*)
