Message from the Guest Editors

Dear Colleagues,

This Special Issue aims to explore and explain how, why, and when a sustainable lifestyle is adopted and participation in the sharing economy becomes key. It further shows how this affects businesses, platforms, and consumers by following an interdisciplinary approach. The Special Issue will provide deeper insights for businesses, legislators and researchers how to design and regulate the sharing economy. These aims will be met by calling for both conceptual and empirical research on either of these concepts and encouraging meta-analysis or systematic literature reviews. Specifically, we look for contributions regarding:

- Relationship between sustainability and sharing economy: resource efficiency and waste reduction
- Building of consumer communities engaging in the sharing economy with the aim to foster sustainability
- Challenges for organizations in the sharing economy with regard to trust building and regulation
- The design of sustainable virtual environments as market place of sharing economy

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer-reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High visibility:** indexed by the Science Citation Index Expanded, the Social Sciences Citation Index (Web of Science) and other databases.

**Rapid publication:** manuscripts are peer-reviewed and a first decision provided to authors approximately 18 days after submission; acceptance to publication is undertaken in 4.88 days (median values for papers published in the first six months of 2018).
