Message from the Guest Editor

The aim is to assemble a set of science-based papers that report on significant actions taken to enhance aspects of sustainability, which may include energy, transport, water management, food supply, liquid and solid waste management, and biodiversity conservation. Priority will be given to papers that include a quantified evaluation of progress made as a result of the implementation of these actions. Actions may be related to technology based and/or management initiatives. Actors may be government departments and agencies, industry, local authorities, voluntary communities, and individuals, and we hope to have a representative mix of these within the Issue. Papers should describe fully how these actions became feasible, and methods used in implementing actions and evaluating outcomes, and priority will be given to papers that address novel approaches. Papers are invited from all countries.

an Open Access Journal by MDPI

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Author Benefits

Open Access: free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [SCIE](#) and [SSCI \(Web of Science\)](#), [GEOBASE](#), [GeoRef](#), [Inspec](#), [AGRIS](#), [RePEc](#), [CAPlus / SciFinder](#), and [other databases](#).

Journal Rank: JCR - Q2 (*Environmental Studies*) / CiteScore - Q1 (*Geography, Planning and Development*)
