Message from the Guest Editors

Dear Colleagues,

Several definitions of sustainable development have been proposed over time (Belkadi et al., 2015), characterizing a process of change in which the exploitation of resources, the direction of investments, and the orientation of technological development are made consistent with future as well as present needs. Sustainability became one of the most important challenges for managers and scholars, given the great impact of its outcomes on the quality of life and the wide variety of fields in which the concept has been applied (Rosen & Kishawy, 2012; Ma et al., 2018). Markets are increasingly demanding sustainable products and services, as well as additional information about the environmental qualities of the products and services consumers use (Buxel et al., 2015; Kim et al., 2018). To meet such expectations, modern management needs sophisticated tools that can improve the monitoring of the environmental traits of products and services in order to understand how these products and services can be made more sustainable.

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Author Benefits

Open Access: free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [SCIE](#) and [SSCI \(Web of Science\)](#), [GEOBASE](#), [GeoRef](#), [Inspec](#), [AGRIS](#), [RePEc](#), [CAPlus / SciFinder](#), and [other databases](#).

Journal Rank: JCR - Q2 (*Environmental Studies*) / CiteScore - Q1 (*Geography, Planning and Development*)
