### Message from the Guest Editors

Today's global health crisis, derived from the COVID-19 pandemic, forces us to consider what is necessary to renew our systems and maintain them, without conditioning the response of future societies.

In this Special Issue, we hope to find papers that raise responses to the challenge of sustainability of healthcare, in particular those aimed at the most vulnerable populations, such as older patients and/or those with chronic diseases, from different approaches. We are particularly interested, from an interdisciplinary and inter-institutional point of view, in the use of AI and algorithms in the field of care management, computational simulation of new care scenarios, the proposal of models to improve care for patients with chronic diseases, the development of tools for early identification, risk detection and screening, or the organization and integration of palliative care in daily clinical practice as well as end-of-life care.

Deadline for manuscript  
submissions:

**30 June 2024**

an Open Access Journal by MDPI

## Editor-in-Chief

## Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

## Author Benefits

**Open Access:** free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

**High Visibility:** indexed within [Scopus](#), [SCIE](#) and [SSCI \(Web of Science\)](#), [GEOBASE](#), [GeoRef](#), [Inspec](#), [AGRIS](#), [RePEc](#), [CAPlus / SciFinder](#), and [other databases](#).

**Journal Rank:** JCR - Q2 (*Environmental Studies*) / CiteScore - Q1 (*Geography, Planning and Development*)
