Message from the Guest Editors

In this Special Issue, we highlight the social and cultural aspects within the sustainability and resilience frames of thought. We are well aware that the cognitive, normative, and operational issues have in various forms been treated before. However, here we stress the need for further and deeper engagement concerning the social and in particular cultural dimensions in systemic elaborations about resilience and in a wider context of sustainability.

Keywords

- social–ecological
- culture
- SES
- systems
- sustainability
- resilience
- SDG
- UN Paris agreement
- human dimensions
- human–nature relations
- Anthropocene

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Author Benefits

Open Access: free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [SCIE](#) and [SSCI \(Web of Science\)](#), [GEOBASE](#), [GeoRef](#), [Inspec](#), [AGRIS](#), [RePEc](#), [CAPlus / SciFinder](#), and [other databases](#).

Journal Rank: JCR - Q2 (*Environmental Studies*) / CiteScore - Q1 (*Geography, Planning and Development*)
