Message from the Guest Editor

Dear Colleagues,

Sustainability plays a key role in the development of new policies and regulations for financial markets. Investors, regulators, and private companies must work together to improve corporate transparency in financial markets and account for comparability measures across different markets. As a result, it is critical to further study sustainable corporate finance to properly model corporate financial decisions, develop innovative and effective financial instruments for investors, and create artificially intelligent agents in a firm.

The aim of this Special Issue is to advance the understanding of the role of corporate governance and investment practices in establishing a firm's sustainable internal and external environments. Specifically, this Special Issue is devoted to empirical and theoretical studies of these and other relevant positive and normative issues.

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Author Benefits

Open Access: free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [SCIE](#) and [SSCI \(Web of Science\)](#), [GEOBASE](#), [GeoRef](#), [Inspec](#), [AGRIS](#), [RePEc](#), [CAPlus / SciFinder](#), and [other databases](#).

Journal Rank: JCR - Q2 (*Environmental Studies*) / CiteScore - Q1 (*Geography, Planning and Development*)
