Message from the Guest Editors

The aim of this Special Issue is to provide the opportunity for all researchers in the field of the application of mathematical methods in economics and management to attempt to streamline existing methods and refine existing models or design new methods and develop new models.

Paticipants of HED'19 will be offered 20% discount for their submissions. The following rules are requested to be followed:

- Title and Abstract should be substantially different with that of conference paper, so that they can be differentiated in various databases;
- 50% new data should be added to make it a real and complete journal paper;
- The conference proceeding should be mentioned and discussed in the introduction section;
- Conference proceeding should be submitted together as a supplementary information.

Message from the Editor-in-Chief

Systems is a leading venue for the quick and global dissemination of results of cutting-edge research in various areas of systems science and systems-related fields. An increasing number of researchers are realizing the enormous potential of systems thinking in managing the many unprecedented and complex issues in all areas of need. The *Systems* journal provides a home of exceptional quality for the manuscripts of these researchers who often find it difficult to publish their work in conventional discipline focused journals.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.
High Visibility: indexed within Scopus, SSCI (Web of Science), dblp, and other databases.
Journal Rank: JCR - Q2 (*Social Sciences, Interdisciplinary*) / CiteScore - Q2 (*Modeling and Simulation*)
