Molecular Bioscience, The  
University of Queensland,  
Brisbane, Australia

Deadline for manuscript  
submissions:

**closed (15 October 2017)**

### Message from the Guest Editors

Dear Colleagues,

This Special Issue of *Toxins* will cover recent developments on animal venoms and pain, including perspectives on the evolution, mechanism of action and structure-function of pro-algesic and analgesic venom components.

The individual articles will review

- The evolutionary processes shaping development of toxins targeting pain pathways
- Pharmacology of venom peptides targeting pain pathways, including toxins targeting transient receptor potential channels, G-protein coupled receptors and voltage-gated ion channels involved in pain
- Insights into structure-activity of toxins acting at pain targets
- Snake venom components targeting peripheral sensory neurons
- Therapeutic applications of venoms for treatment of pain

Assoc. Prof. Stuart M. Brierley

## Editor-in-Chief

### **Prof. Dr. Jay Fox**

Department of Microbiology,  
University of Virginia,  
Charlottesville, VA, USA

## Message from the Editor-in-Chief

Toxinology is an incredibly diverse area of study, ranging from field surveys of environmental toxins to the study of toxin action at the molecular level. The editorial board and staff of *Toxins* are dedicated to providing a timely, peer-reviewed outlet for exciting, innovative primary research articles and concise, informative reviews from investigators in the myriad of disciplines contributing to our knowledge on toxins. We are committed to meeting the needs of the toxin research community by offering useful and timely reviews of all manuscripts submitted. Please consider *Toxins* when submitting your work for publication.

## Author Benefits

**Open Access:** free for readers, with **article processing charges (APC)** paid by authors or their institutions.

**High Visibility:** indexed within **Scopus**, **SCIE (Web of Science)**, **PubMed**, **MEDLINE**, **PMC**, **Embase**, **CAPLus / SciFinder**, **AGRIS**, and **other databases**.

**Journal Rank:** JCR - Q1 (*Toxicology*) / CiteScore - Q1 (*Toxicology*)
