Message from the Editor-in-Chief

*Veterinary Sciences* (ISSN 2306-7381) is an international and interdisciplinary scholarly open access journal that aims at publishing research in all fields of veterinary medicine in a democratic way. We encourage scientists to publish their original research articles, reviews, communications, and short notes in as much detail as possible. Articles submitted that involve subjecting animals to unnecessary pain or suffering will not be accepted, and all articles must be submitted with the necessary ethical approval (please refer to the Ethical Guidelines for more information).

Author Benefits

The journal aims at democratic distribution with no charges of science to a large public and is growing in its inclusion in public scientific databases and obtaining a citation index quotation. It offers open unlimited Open Access and no copyright constraints. You retain copyright of your work and free use of your article. Your manuscript will go through a thorough peer-review system as to retain the scientific quality. There are no space or length constraints and no extra space or color charges.
Aims and Scope

*Veterinary Sciences* publishes original research articles, reviews, communications, and short notes that are relevant to any field of veterinary sciences, including prevention, diagnosis and treatment of disease, disorders and injuries in animals.

*Veterinary Sciences* deals with almost all topics related to animal health and veterinary medicine. Research fields of interest include but are not limited to:

- anesthesiology
- anatomy
- bacteriology
- biochemistry
- cardiology
- dentistry
- dermatology
- embryology
- endocrinology
- epidemiology
- genetics
- histology
- immunology
- microbiology
- molecular biology
- mycology
- neurobiology
- oncology
- ophthalmology
- parasitology
- pathology
- pharmacology
- physiology
- radiology
- surgery
- theriogenology
- toxicology
- virology
