Deadline for manuscript submissions:
28 February 2014

Special Issue website:
mdpi.com/si/toxins/evolution-venom

Dear Colleagues,

Venom systems are key evolutionary innovations used for competitor deterrence, defence and predation. The evolution of venom has been the trigger for the explosive radiation of many orders of animals. This Special Issue will be composed of papers exploring origin and diversification of venom systems and their intricate relationship with changes in predatory ecology. Reviews for this special issue are on an invitation-only basis. Please contact Professor Fry to discuss ideas for a review so as to avoid overlap with other reviews.

Prof. Dr. Bryan Fry
Guest Editor

Submission

Manuscripts should be submitted online at www.mdpi.com by registering and logging in to this website. Once you are registered, click here to go to the submission form. Manuscripts can be submitted until the deadline. Papers will be published continuously (as soon as accepted) and will be listed together on the special issue website. Research articles, review articles as well as communications are invited. For planned papers, a title and short abstract (about 100 words) can be sent to the Editorial Office for announcement on this website.

Submitted manuscripts should not have been published previously, nor be under consideration for publication elsewhere (except conference proceedings papers). All manuscripts are refereed through a peer-review process. A guide for authors and other relevant information for submission of manuscripts is available on the Instructions for Authors page. Toxins is an international peer-reviewed Open Access monthly journal published by MDPI.

Please visit the Instructions for Authors page before submitting a manuscript. The Article Processing Charge (APC) for publication in this open access journal is 1000 CHF (Swiss Francs).
