Biomedical Engineering,
Nanyang Technological
University, Singapore 637459,
Singapore

Message from the Collection Editor

Dear Colleagues,

The scope for the Topic Collection includes but is not limited to the following: Fundamentals of process modeling and technoeconomic assessment; New concepts in hybrid processes and process integration; Innovations in module modeling and design; Advances in real-time process monitoring, control, and automation; Fundamentals of predicting and preventing membrane fouling; Innovations in MF and UF; Case studies in process scale-up; Membrane distillation and pervaporation: innovations in process design and scalability; Process innovations in electrofunctional and electrocatalytic membrane processes; New concepts in osmotically-driven membrane processes.

Dr. Jia Wei Chew

an Open Access Journal by MDPI

Editor-in-Chief

Prof. Dr. Spas D. Kolev

School of Chemistry, The
University of Melbourne,
Melbourne, VIC 3010, Australia

Message from the Editor-in-Chief

You are cordially invited to contribute a research article or a comprehensive review for consideration and publication in *Membranes* (ISSN 2077-0375).

Membranes is an international, peer-reviewed open access journal of membrane technology published monthly online by MDPI. The journal covers the broad aspects of the science and technology of both biological and non-biological membranes, including membrane dynamics and the preparation and characterization of membranes and their applications in water, environment, energy, and food industries. Articles contributing to better understanding of transport processes in all types of membranes are also welcome. The scientific community and the general public have unlimited and free access to the content as soon as it is published. We would be pleased to welcome you as one of our authors.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), Ei Compendex, PubMed, PMC, CAPlus / SciFinder, Inspec, and other databases.

Journal Rank: JCR - Q2 (*Polymer Science*) / CiteScore - Q2 (*Chemical Engineering (miscellaneous)*)
