Message from the Guest Editor

The aim of this Special Issue “Advances in Supported Nanoparticle Catalysts” is to attract leading researchers in the area of supported nanoparticle research in an effort to highlight the latest exciting developments in the field and to promote practical applications. Accepted contributions will include the design, synthesis, and fundamental properties of nanoparticle-based catalysts and their applications to several types of chemical reactions.

Message from the Editor-in-Chief

Processes (ISSN 2227-9717) provides an advanced forum for process/system-related research in chemistry, biology, material, energy, environment, food, pharmaceutical, manufacturing and allied engineering fields. The journal publishes regular research papers, communications, letters, short notes and reviews. Our aim is to encourage researchers to publish their experimental, theoretical and computational results in as much detail as necessary. There is no restriction on paper length or number of figures and tables.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), Ei Compendex, Inspec, AGRIS, and other databases.

Journal Rank: JCR - Q2 (*Engineering, Chemical*) / CiteScore - Q2 (*Chemical Engineering (miscellaneous)*)
