Deadline for manuscript
submissions:

31 October 2024

Message from the Guest Editors

This Special Issue, titled "Advanced Studies in Recycling and Waste Management", aims to collate advanced research regarding the recycling and management of solid wastes towards sustainability and carbon neutrality. The scope includes recent developments, emerging concepts, cutting-edge technologies and related modelling techniques. This Special Issue is expected to bring scientific communities together, facilitate view exchanges from different perspectives and inspire novel research works.

Original research articles and reviews are welcome, with the research areas including (but not being limited to) the following:

- latest advances in waste recycling technology and its application;
- analysis of metabolic flow of urban solid waste and waste water;
- digital and intelligent solutions for waste management;
- environmental and economic impact assessment of waste management systems;
- waste management transition paths towards carbon neutrality;
- practice and experience towards a "zero waste" society.

We look forward to receiving your contributions.

an Open Access Journal by MDPI

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, AGRIS, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q2 (*Environmental Studies*) / CiteScore - Q1 (Geography, Planning and Development)
