

Supplementary Materials: A PDMS-Based Microfluidic Hanging Drop Chip for Embryoid Body Formation

Huei-Wen Wu, Yi-Hsing Hsiao, Chih-Chen Chen, Shaw-Fang Yet and Chia-Hsien Hsu

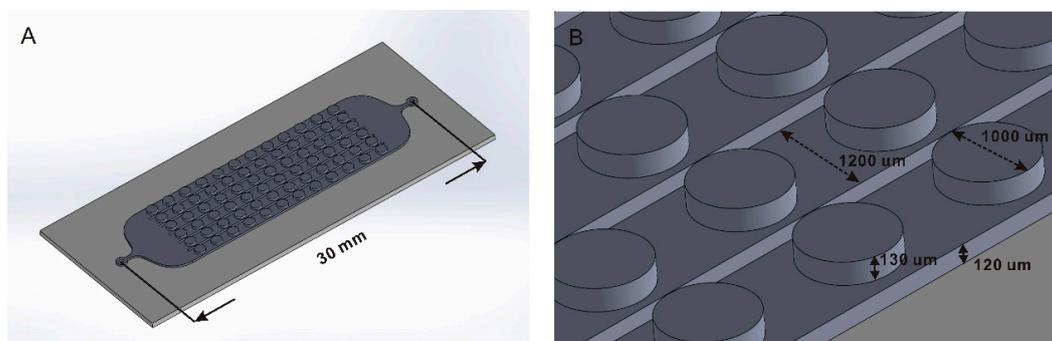

Figure S1. 3D illustration of the SU-8 mold. (A) Full mold; (B) Close-view of the mold.

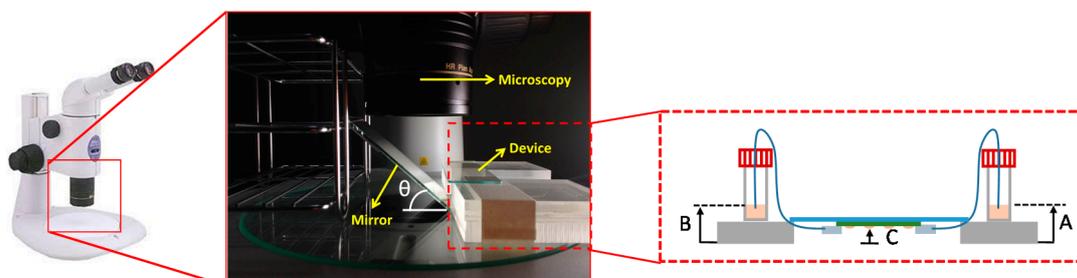

Figure S2. Setup of the droplet measurement. **A** and **B** are the combined height of medium and PMMA plate from the microscope stage, whereas **C** is the distance from the droplet's bottom to the microscope stage.

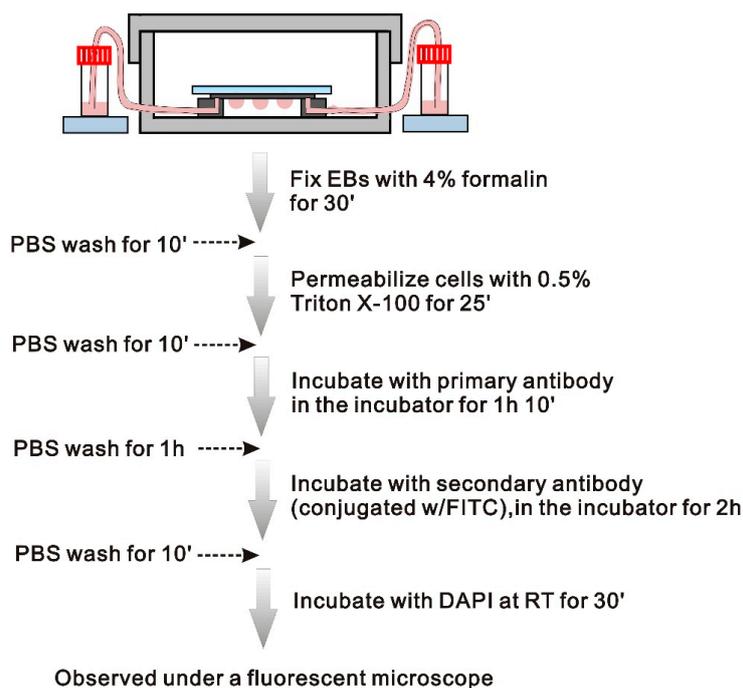

Figure S3. Illustration of on-chip immunochemistry staining steps.
