

Supplementary material

Table 1. Correlation analysis between the bioactive compounds and α -glucosidase inhibitory activity of CDL extracts.

	TPC	TFC	α -Glu
TPC	1	-0.204	-0.449
TFC		1	-0.648 **
α -Glu			1

Note: TPC: Total phenolic content; TFC: Total flavonoid content; α -Glu: α -glucosidase inhibitory activity; ** represents extreme correlation ($P < 0.01$); * represents significant correlation ($P < 0.05$).
