In the original publication [1], there was a mistake in the caption of Figure 1 as published. The authors unintentionally reused chromatograms from previous publications but neglected to properly cite the previous work. However, the authors referenced the previous publication as Reference [12] in the main text of the original publication [1]. The correct figure caption appears below. The authors state that the scientific conclusions are unaffected. This correction was approved by the Academic Editor. The original publication has also been updated.

Figure 1. The total ion chromatogram of the aerial part of hydroethanolic extract of *Portulaca oleracea*. Reprinted from Ref. [12].
