

Supplementary Materials: A Novel Isothermal Assay of *Borrelia burgdorferi* by Recombinase Polymerase Amplification with Lateral Flow Detection

Wei Liu, Hui-Xin Liu, Lin Zhang, Xue-Xia Hou, Kang-Lin Wan and Qin Hao

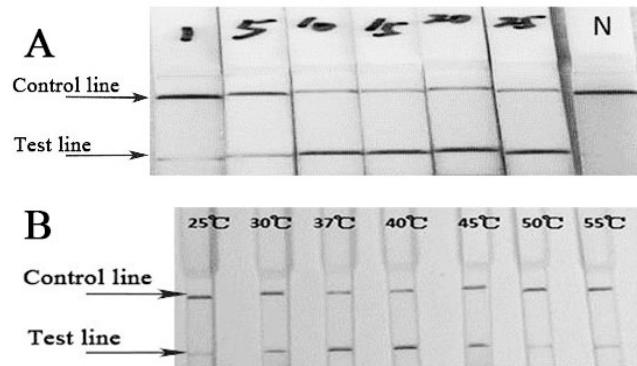

Figure S1. Determination of reaction time and temperature of recombinase polymerase amplification with lateral flow (LF-RPA) assay. (A) Result of LF-RPA reaction stopped in different time. The numbers on the strips stand for the reaction time, 1 min, 5 min, 10 min, 15 min, 20 min and 25 min. N stands for the negative control (water); (B) result of LF-RPA reaction in different temperature.

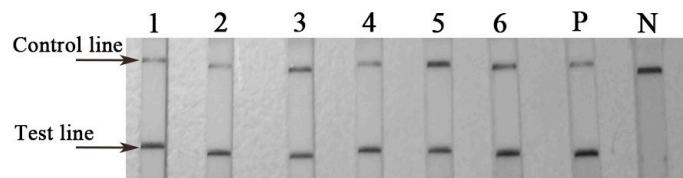

Figure S2. Effect of components of BSKII culture in LF-RPA assay. N stands for the negative control (water). P stands for positive control (B31, 1 ng). 1, HEPS (6%); 2, NaHCO₃ (2.2%); 3, Sodium citrate (0.7%); 4, Tryptone (5%); 5, Yeast extract (2%); 6, BSKII culture. These components were replaced the water in the LF-RPA reaction.

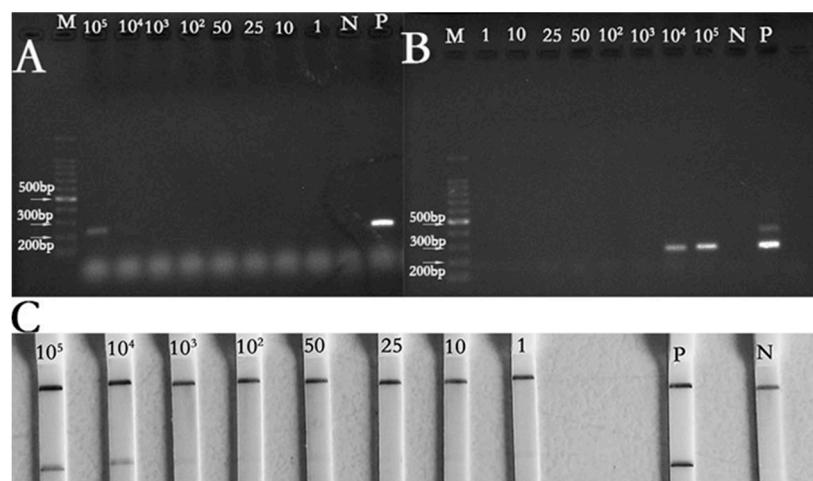

Figure S3. Results of simulated serum samples tested by PCR, nested-PCR and LF-RPA. (A) the results of PCR; M: marker; N, healthy serum (negative control); P, positive control; (B) the results of nested-PCR; M: marker; N, healthy serum (negative control); P, positive control; (C) the results of LF-RPA; N, healthy serum (negative control); P, positive control.

Table S1. Background of 36 *Borrelia burgdorferi* (*B. burgdorferi*) strains in this study.

Strains	Area (Province)	Sources	Genome Types
JC2-10	Jilin	<i>Ixodes persulcatus</i>	<i>B.garinii</i>
MD21	Guangdong	<i>Rattus norvegicus</i>	<i>B.garinii</i>
LA6	Liaoning	<i>Apodemus agrarius</i>	<i>B.garinii</i>
JC1-13	Jilin	<i>Ixodes persulcatus</i>	<i>B.garinii</i>
JP24	Jilin	<i>Ixodes persulcatus</i>	<i>B.garinii</i>
JP25	Jilin	<i>Ixodes persulcatus</i>	<i>B.garinii</i>
JJ2	Jilin	<i>Ixodes persulcatus</i>	<i>B.garinii</i>
JN8	Jilin	<i>Ixodes persulcatus</i>	<i>B.garinii</i>
JC1-11	Jilin	<i>Ixodes persulcatus</i>	<i>B.garinii</i>
HS1	Heilongjiang	<i>Ixodes persulcatus</i>	<i>B.garinii</i>
SH2	Chongqing	<i>Haemaphysalis bispinosa</i>	<i>B.afzelii</i>
SH4	Chongqing	<i>Haemaphysalis bispinosa</i>	<i>B.afzelii</i>
GS3	Guizhou	<i>Apodemus agrarius</i>	<i>B.afzelii</i>
SH5	Chongqing	<i>Haemaphysalis bispinosa</i>	<i>B.afzelii</i>
XI93-1	Xinjiang	<i>Ixodes persulcatus</i>	<i>B.garinii</i>
CS4	Hunan	The rabbit bladder sample	<i>B. burgdorferi sensu stricto</i>
LB21	Beijing	<i>Ixodes persulcatus</i>	<i>B.afzelii</i>
LB20	Beijing	<i>Ixodes persulcatus</i>	<i>B.afzelii</i>
TSH3	Guangdong	<i>Haemaphysalis longicornis</i>	<i>B.afzelii</i>
LIP94-11	Liaoning	<i>Ixodes persulcatus</i>	<i>B.afzelii</i>
SH3	Chongqing	<i>Haemaphysalis bispinosa</i>	<i>B.afzelii</i>
GS1	Guizhou	<i>Ixodes granulatus</i>	<i>B.afzelii</i>
JP10	Jilin	<i>Ixodes persulcatus</i>	<i>B.garinii</i>
JP13	Jilin	<i>Ixodes persulcatus</i>	<i>B.garinii</i>
IM91-3A	Inner Mongolia	<i>Ixodes persulcatus</i>	<i>B.garinii</i>
QSDS4	Guizhou	<i>Apodemus agrarius</i>	<i>B. valaisiana</i>
QLZSP1	Guizhou	<i>Ixodes granulatus</i>	<i>B. valaisiana</i>
QLZP1	Guizhou	<i>Ixodes granulatus</i>	<i>B. valaisiana</i>
QJDSP1	Guizhou	<i>Ixodes granulatus</i>	<i>B. valaisiana</i>
QTDS2	Guizhou	<i>Rattus fulvescens</i>	<i>B. valaisiana</i>
Y3	Heilongjiang	Patient blood	<i>B. garinii</i>
FP1	Chongqing	<i>Neuropsychiatric disorders patient, blood</i>	<i>B. afzelii</i>
PD91	Inner Mongolia	<i>Neuropsychiatric disorders patient, blood</i>	<i>B. garinii</i>
B31	America	<i>Ixodes scapularis</i>	<i>B. burgdorferi sensu stricto</i>
JX17	Jiangxi	<i>Apodemus agrarius</i>	<i>B. valaisiana</i>
R9	Heilongjiang	Chronicmeningitis patient, CSF	<i>B. afzelii</i>
