

Table S2. Numbers of proteins and PSM (peptide spectral matches) detected in three biological replicates of *Xoo* and *XooΔfleQ* from LC-MS/MS.

Strains	1st		2nd		3rd		shared proteins in 3 biological replicates
	protein	PSM	protein	PSM	protein	PSM	
<i>Xoo</i> *	1584	39360	1702	39605	2642	31602	1227
<i>XooΔfleQ</i>	1796	29283	1799	29285	2090	29243	1161

*Identified proteins and PSMs from *Xoo* were used in a study published recently [33].
