#### ***Table of Contents***

<b>Description</b>	<b>Page No.</b>
Supplementary Figure S1: A representation of the number of times that a specific interactor protein of OGT is identified.	S-2
Supplementary Figure S2: A word cloud representation of all human OGT interactors that appear frequently in OGT-PIN.	S-3
Supplementary Table S1: The list of all protein interactors of OGT and orthologues.	

**Supplementary Figure S1.** A representation of the number of times that a specific interactor protein of OGT has been identified.

**Supplementary Figure S2.** A word cloud representation of 784 human OGT interactors that appear frequently in OGT-PIN. The size of each word indicates its frequency of overlap in the dataset.
