

Antagonist of growth hormone-releasing hormone potentiates the antitumor effect of pemetrexed and cisplatin in pleural mesothelioma

Gesmundo et al.

Supplemental Material

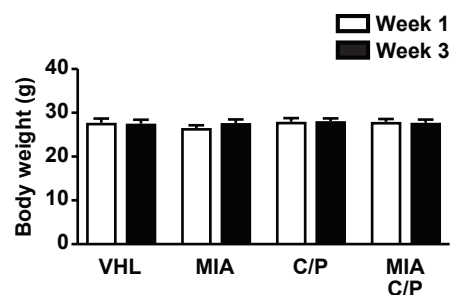

Figure S1. Body weight variation in mice xenografted with MSTO-211H PM cells. Body weight was assessed at week 1 and week 3 in mice treated with vehicle (VHL), MIA-690, cisplatin and pemetrexed (C/P) or the combination of MIA/C/P. Results are mean \pm SEM. (n = 9 in each group).
