

Supplementary Table S1 Manipulations during a 4 week exposure of mice to unpredictable chronic mild stress (CUMS).

	time	Monday	Tuesday	Wednesday	Thursday	Friday	Saturday	Sunday		
week1	8 a.m.						altered light cycle	altered light cycle+wet bedding		
	9 a.m.									
	10 a.m.			food and water deprivation	cage tilt+ no bedding	wet bedding				
	11 a.m.									
	12 a.m.		restraint (0.5 h)							
	1 p.m.									
	2 p.m.				forced bath					
	3 p.m.					no bedding overnight	social stress	no bedding overnight		
	4 p.m.									
week2	8 a.m.									
	9 a.m.									
	10 a.m.			cage tilt+wet bedding		altered light cycle	restraint (0.5h)			
	11 a.m.									
	12 a.m.	cage tilt								
	1 p.m.									
	2 p.m.									
	3 p.m.			foot shock+wet bedding	cage tilt+food and water deprivation	social stress+wet bedding overnight		no bedding overnight		
	4 p.m.	forced bath								
week3	8 a.m.									
	9 a.m.				wet bedding			cage tilt+altered light cycle		
	10 a.m.									
	11 a.m.	forced bath	cage tilt+ food and water deprivation	altered light cycle						
	12 a.m.					forced bath				
	1 p.m.									
	2 p.m.				foot shock+noise(120 Hz)	no bedding		noise (120 Hz)		
	3 p.m.									
	4 p.m.									
week4	9 a.m.						altered light cycle			
	10 a.m.				cage tilt+wet bedding	forced bath				
	11 a.m.									
	12 a.m.	wet bedding	restraint (0.5 h)							
	1 p.m.						noise(120Hz)			
	2 p.m.									
	3 p.m.					no bedding				
	4 p.m.		no bedding overnight		food and water deprivation
