

Supplementary Table S1. Commercial WGA kits.

DOP-PCR	DOPlify by Perkin Elmer			
MDA	REPLI-g by Qiagen	GenomiPhi V2 by Cytiva	Illustra GenomiPhi by GE Healthcare	TruePrime by Sygnis (non hexamer-based WGA)
MALBAC	MALBAC by Yicon Genomics	ChromInst by Yicon Genomics (integrating WGA and library preparation)		
Ligation- mediated PCR	Ampli1 by Silicon Biosystems			
Hybrid methods	PicoPlex by Takara (originally developed by Rubicon genomics)	GenomePlex by Merck (formely Sigma Aldrich)	SurePlex by Illumina	PicoSeq by Takara (PicoPlex integrating WGA and library preparation)
