

Figure S1. Distributions of quality control parameters S/N (panel A), MME (panel B) and IPQ (panel C) for apo-CIII glycoforms in 1571 DiaGene samples.

S/N: signal-to-noise ratio; MME: mass measurement error; IPQ: isotopic quality pattern. Blue = apo-CIII_{0a}; orange = apo-CIII_{0c}; gray = apo-CIII₁; yellow = apo-CIII₂.
