

Color Scheme for OW_2019 Supertrees

We have used a consistent color scheme for tree figures. The colors indicate the major clades (Palaeognathae, Galloanseres, and the "magnificent seven" and "orphan orders" within Neoaves). Colors are presented along with hex RGB values. Note that, although Passeriformes is nested within Telluraves, it is assigned its own color.

Palaeognathae
000000

Galloanseres
94C24A

Neoaves

Mirandornithes
Neoaves clade VII
FF84CD

Charadriiformes
Neoaves "orphan"
D4C45B

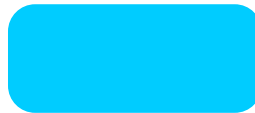

Columbimorphae
Neoaves clade VI
80004A

Opisthocomiformes
Neoaves "orphan"
000000

Strisores
Neoaves clade V
996633

Phaethontimorphae
Neoaves clade III
00CCFF

Otidimorphae
Neoaves clade IV
FF0000

Aequornithes
Neoaves clade II
3333FF

Gruiformes
Neoaves "orphan"
FF8000

Telluraves
Neoaves clade I
00CC33

Passeriformes
nested within Neoaves clade I
006666
