**Supplementary Materials**

Figure S1. Linear relationship between explanatory variables and wetland angiosperm species richness (SR). **(A)** annual mean temperature (AMT); **(B)** temperature seasonality (TS); **(C)** annual precipitation (AP); **(D)** precipitation of driest month (PDM); **(E)** precipitation seasonality(PS)；**(F)** ratio of wetland area to county area (Ratio_WA)；**(G)**Elevation variation coefficient (EVC)；**(H)** wetland area (WA).
