Supplementary information

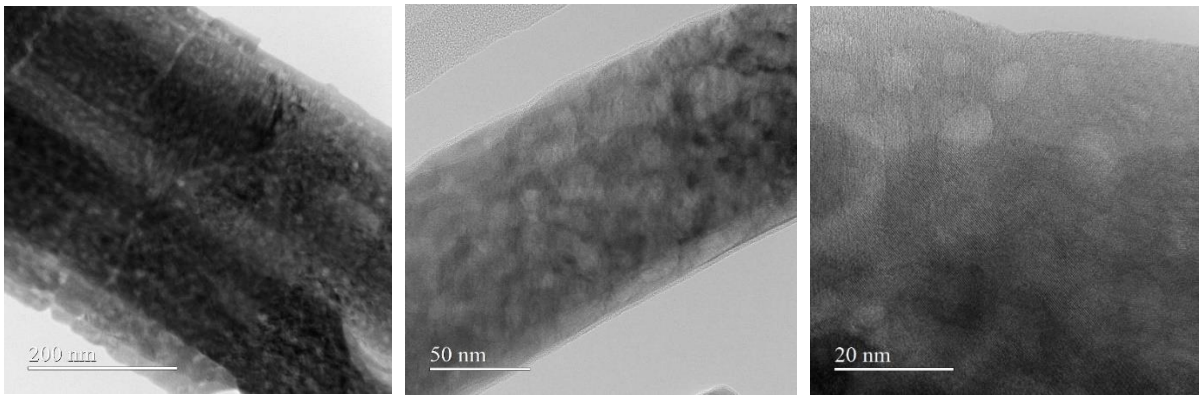

Figure S1. Magnified TEM images of Figure 2 (**d**).

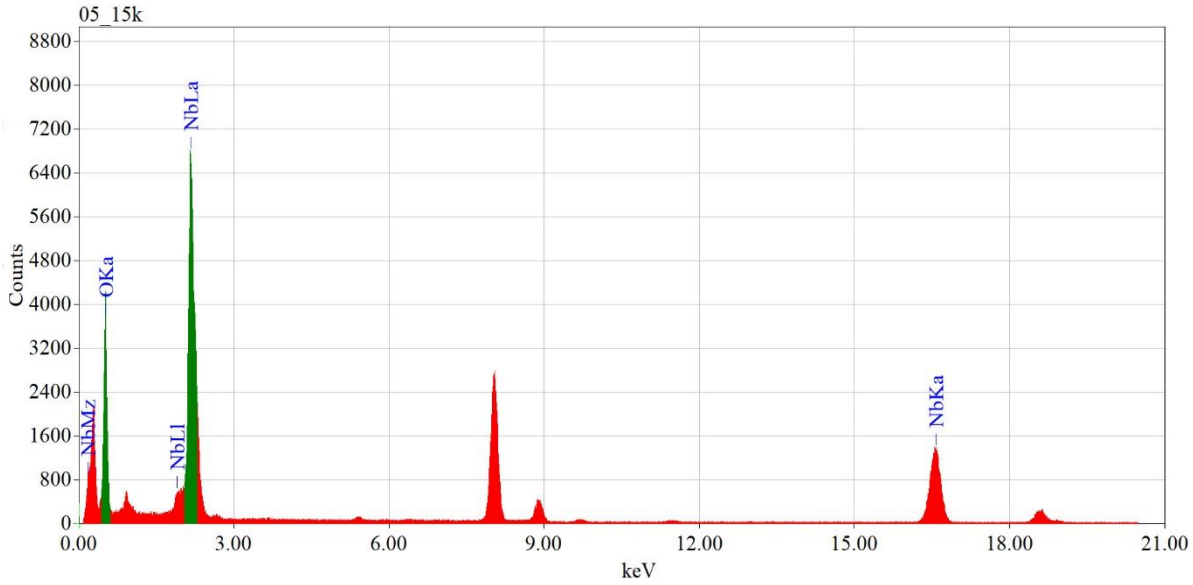

Figure S2. EDX spectrum of Nb_2O_5 microcolumns confirming the presence of Nb and O.

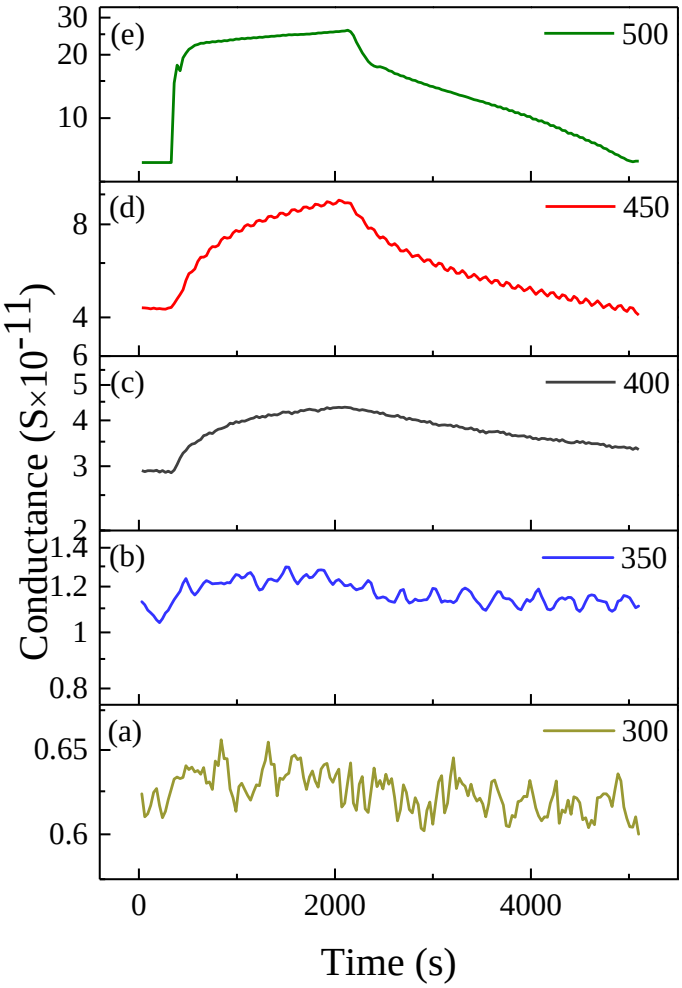

Figure S3. Nb_2O_5 microcolumns sensor response to 10 ppm ethanol at different operating temperatures (300-500 °C).

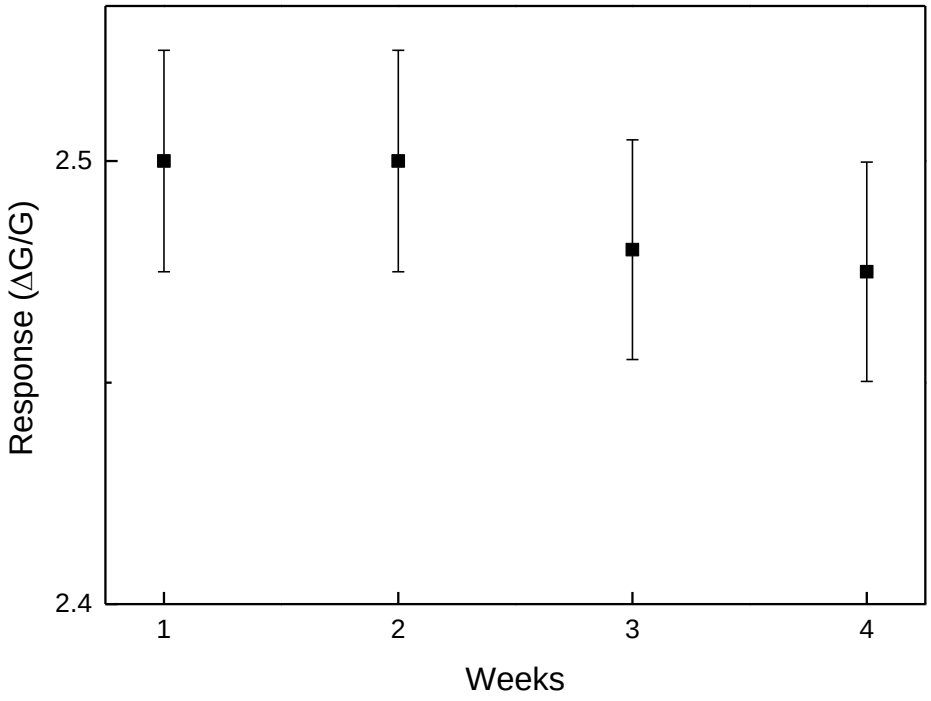

Figure S4. Long term stability of the Nb_2O_5 microcolumns sensor response to 10 ppm ethanol at 500 °C.

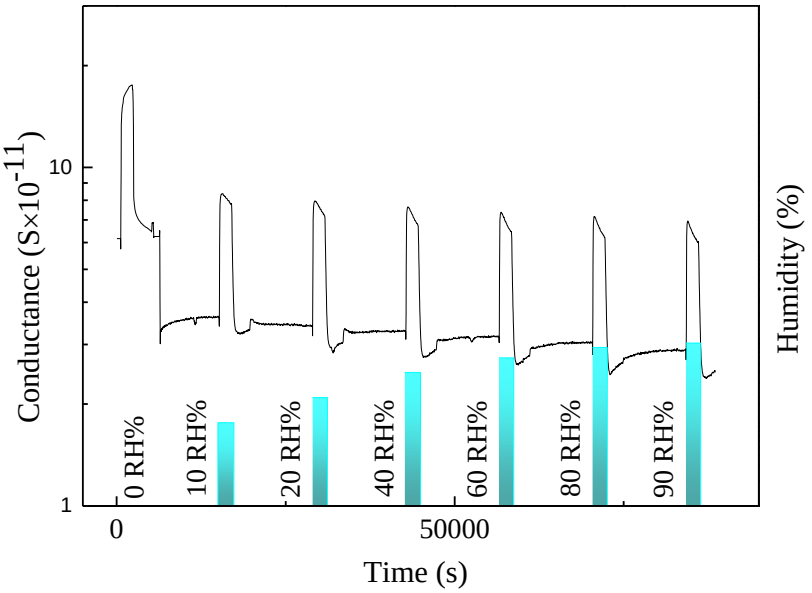

Figure S5. Nb_2O_5 microcolumns sensor dynamic response to 10 ppm ethanol at different humidity levels when operating at optimum working temperatures (500 °C).
