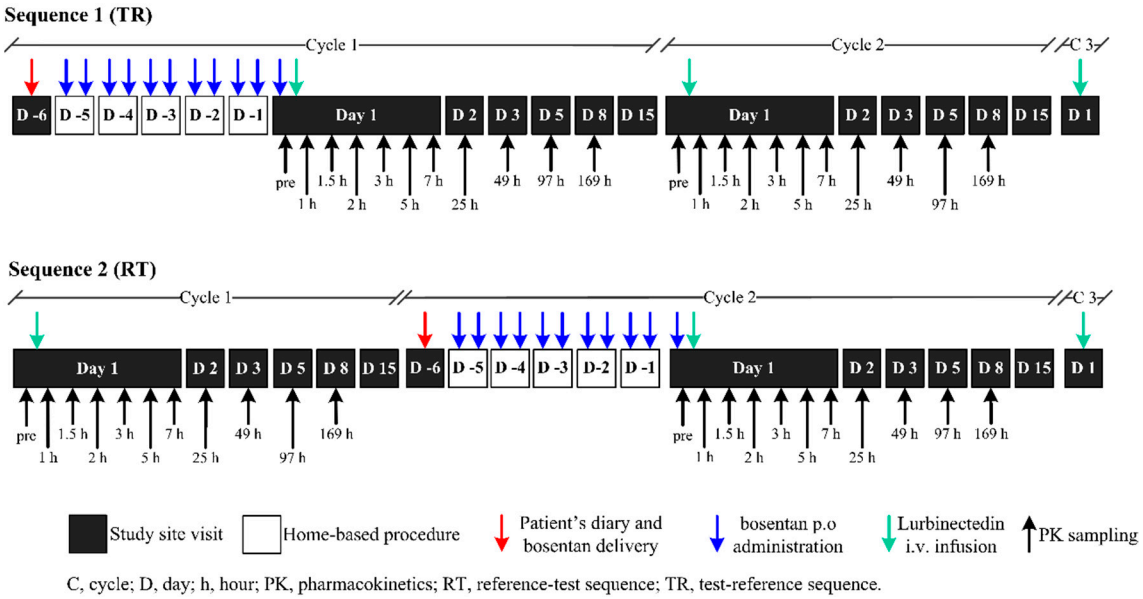
Supplementary material



C, cycle; D, day; h, hour; PK, pharmacokinetics; RT, reference-test sequence; TR, test-reference sequence.

**Figure S1.** Schematic diagram of trial design. Note: in Sequence 2 (RT) the Day 15 (D15) of Cycle 1 and the Day –6 (D–6) of Cycle 2 represent the same day/visit in the absence of delays. Patients were randomized to receive either Sequence 1 (TR) of bosentan with lurbinectedin in Cycle 1 followed by two consecutive cycles of lurbinectedin alone [last cycle being optional]) or Sequence 2 (RT) of lurbinectedin alone in Cycle 1, bosentan with lurbinectedin in Cycle 2 and lurbinectedin alone in Cycle 3 (optional).
