

AppendixA_Synonym List.xlsx

This excel file contains the keywords used to flag sentences in documents.

Category	This is the Classification category from the FEGS Classification System
Class	This is the Class from the FEGS Classification System
SubClass	<p>This is the Subclass from the FEGS Classification System</p> <p>Each subclass has associated keywords that are searched for, depending on the type of word. "Include" are words that must be included in a sentence for it to be flagged. "Near" words must also be included in the sentence and modify the 'include' words in some way. "Exclude" words cause the flagged</p>
Word_type	<p>sentence to be rejected.</p> <p>These are sets of keywords that are searched (depending on the word type) to flag sentences in the document search. The symbol " " indicates "OR". Within a column for a given subclass, particular "near", "include" and "exclude" words are considered in combination. Different columns (S1, S2, etc.) may represent other keyword combinations that are also considered (i.e., the sentence is flagged if it</p>
S1-S15	<p>contains the keywords in column S1 or S2 or S3, etc.)</p>
