**Q10b/**Nurses can have different responsibilities within medicines management. We defined several tasks within 7 responsibilities beyond preparation and administration of medicines.

We want you to think about the ideal situation to obtain best quality of interprofessional care and patient outcomes. You do not have to indicate the current nursing situation.

Please indicate for each task, whether you think this could be a nursing task.

#### **RESPONSIBILITY 1: management of therapeutic and adverse effects of medicines.**

Q20/

In your current context, on balance, are the following factors **barriers or enablers** of nurses' roles in interprofessional pharmaceutical care? Indicate your opinion on a scale from -5 to +5 (-5 = a great barrier, 0 = no influence on nurses' responsibilities or tasks, +5 = a great enabler).
