Table S1. Phases of Data collection: Dates, Eligibility Criteria, Response Numbers, and Rationale.

	Phase	Start/End date	Inclusion/Exclusion criteria	Total Responses	Rationale
New York State Sample	1a. NYS Soft-Launch	07/02/2020 to 07/02/2020	(1) 18+ years of age, (2) New York State (NYS) resident, (3) previously completed at least 500 MTurk tasks; and (4) 90% approval ratings for previously completed MTurk tasks	N= 5	To test for any flaws in the survey logic or payment mechanism
	1b. NYS Launch	07/02/2020 to 08/01/2020	(1) 18+ years of age, (2) NYS resident; (3) previously completed at least 500 MTurk tasks; and (4) 90% approval ratings for previously completed MTurk tasks, and (5) did not complete phase 1 survey.	$N = 597$	After a period of diminished participation, it was determined that the slow response rate was attributed to limiting the participant pool to NYS residents.
National Sample	2. National Launch	08/05/2020 to 08/05/2020	(1) 18+ years of age; (2) previously completed at least 500 MTurk tasks; and (3) 90% approval ratings for previously completed MTurk tasks; and (4) did not complete phase 1 or 2a survey.	$N = 605$	As such, we re-launched the survey without the initial regional-filtering (phase 2).
