- ☐ endocrine system disease
- ☐ anaemia
- ☐ other:

Have you undergone COVID-19?

- ☐ yes

- no

Try to assess your overall fear of COVID-19 (its course, consequences...) on a scale of 1-5:

1 – I am not afraid of COVID-19; 5 – I have serious concerns about COVID-19

I was motivated to get vaccinated against COVID-19 by (choose any number of options):

- Concerns about COVID-19 itself
- An effort to prevent the spread of COVID-19 during the performance of my profession
- An effort to protect family members
- Being exempted from restrictive COVID-19 measures after vaccination
- Other:

I was motivated to get vaccinated against COVID-19 by (choose one option/the strongest motive):

- Concerns about COVID-19 itself
- **An effort to prevent the spread of COVID-19 during the performance of my profession**
- An effort to protect family members
- Being exempted from restrictive COVID-19 measures after vaccination
- Other:

***For those, who chose the option highlighted in bold***

In terms of the effort to prevent the spread of COVID-19 in the profession, I was motivated by (choose any number of detailed options):

- An effort to prevent the spread of COVID-19 to people who I work with (clients, patients, etc.)
- An effort to prevent the spread of COVID-19 to colleagues
- An effort not to endanger the functioning of my workplace in case of my incapacity to work
- Being a positive role model for unvaccinated colleagues
- An effort to prevent a negative impact of the disease on my professional development
- Other:
