

## SUPPLEMENT

Supplemental Figure S1. Funnel plot of studies reporting D-dimer as prognostic factor for VTE

(Egger's regression test for asymmetry  $p=0.50$ )

Supplemental Figure S2. Funnel plot of studies reporting C-reactive protein as prognostic factor for VTE (Egger's regression test for asymmetry  $p=0.54$ )

Supplemental Figure S3. Funnel plot of studies reporting platelet level as prognostic factor for VTE (Egger's regression test for asymmetry  $p=0.86$ )

Supplemental Figure S4. Funnel plot of studies reporting age as prognostic factor for VTE  
(Egger's regression test for asymmetry  $p=0.80$ )

Supplemental Figure S5. Funnel plot of studies reporting body mass index as prognostic factor for VTE (Egger's regression test for asymmetry  $p=0.71$ )

Supplemental Figure S6. Funnel plot of studies reporting fibrinogen level as prognostic factor for VTE (Egger's regression test for asymmetry  $p=0.07$ )
