**Comments**

I am seeking copyright permission from the NLAC to reproduce a table in a journal article that I am writing concerning the wellbeing benefits of engaging in landcare practices in health care precincts.. The article is to be published in the International Journal of

Environmental Research and Public Health.

The table concerned is Page 21, Table 2 page "categories of multiple benefits" from the 2013 Final Report for the Australian Landcare Council (Multiple Benefits of Landcare and Natural Resource Management), produced by the GHD Group.

I would appreciate an urgent response to meet publication deadlines.
